ADMINISTRATIVE CIVIL LIABILITY COMPLAINT R5-2010-0539

MANDATORY PENALTY
IN THE MATTER OF

CITY OF RIO VISTA
NORTHWEST WASTEWATER TREATMENT FACILITY
SOLANO COUNTY

This Complaint is issued to the City of Rio Vista (hereafter Discharger) pursuant to California Water Code (CWC) section 13385, which authorizes the imposition of Administrative Civil Liability, and CWC section 13323, which authorizes the Executive Officer to issue this Complaint. This Complaint is based on findings that the Discharger violated provisions of Waste Discharge Requirements (WDRs) Order R5-2004-0092 (NPDES No. CA0083771).

The Executive Officer of the Central Valley Regional Water Quality Control Board (Central Valley Water Board or Board) finds the following:

1. The Discharger owns and operates a wastewater collection, treatment, and disposal system, and provides sewerage service to part of the City of Rio Vista. Treated municipal wastewater is discharged into the Sacramento River, a water of the United States.
2. On 9 July 2004, the Central Valley Water Board adopted WDRs Order R5-2004-0092, which regulated the operations of the Northwest Wastewater Treatment Plant, contained new regulations, and rescinded Order R5-2002-0099. The WDRs include effluent limitations and other requirements regarding the wastewater discharges.
3. On 5 May 2008, the Assistant Executive Officer of the Central Valley Water Board issued Administrative Civil Liability Complaint R5-2008-0525 for mandatory minimum penalties for effluent violations from 1 April 2004 through 31 December 2007 in the amount of \$1,005,000. The Discharger, a small community with a financial hardship, completed a Compliance Project. The Board considers the matter resolved.
4. This Complaint covers the period of 1 January 2008 through 30 June 2010. On 14 July 2010, Central Valley Water Board staff issued the Discharger a draft Record of Violations for the time period of 1 January 2008 through 30 April 2010. The Discharger responded on 13 August 2010 and agreed with the violations. This Complaint extends the period of record to 30 June 2010, during which time there were no additional violations.
5. CWC section 13385 subdivisions (h) and (i) require assessment of mandatory penalties and state, in part, the following:

CWC section 13385 subdivision (h)(1) states:

Notwithstanding any other provision of this division, and except as provided in subdivisions (j), (k), and (l), a mandatory minimum penalty of three thousand dollars (\$3,000) shall be assessed for each serious violation.

CWC section 13385 subdivision (h)(2) states:

For the purposes of this section, a "serious violation" means any waste discharge that violates the effluent limitations contained in the applicable waste discharge requirements for a Group II pollutant, as specified in Appendix A to Section 123.45 of Title 40 of the Code of Federal Regulations, by 20 percent or more or for a Group I pollutant, as specified in Appendix A to Section 123.45 of Title 40 of the Code of Federal Regulations, by 40 percent or more.

CWC section 13385 subdivision (i)(1) states:

Notwithstanding any other provision of this division, and except as provided in subdivisions (j), (k), and (l), a mandatory minimum penalty of three thousand dollars (\$3,000) shall be assessed for each violation whenever the person does any of the following four or more times in any period of six consecutive months, except that the requirement to assess the mandatory minimum penalty shall not be applicable to the first three violations:

- A) Violates a waste discharge requirement effluent limitation.
- B) Fails to file a report pursuant to Section 13260.
- C) Files an incomplete report pursuant to Section 13260.
- D) Violates a toxicity effluent limitation contained in the applicable waste discharge requirements where the waste discharge requirements do not contain pollutant-specific effluent limitations for toxic pollutants."

6. CWC section 13323 states, in part:

Any executive officer of a regional board may issue a complaint to any person on whom administrative civil liability may be imposed pursuant to this article. The complaint shall allege the act or failure to act that constitutes a violation of law, the provision authorizing civil liability to be imposed pursuant to this article, and the proposed civil liability.

7. WDRs Order R5-2004-0092 Effluent Limitations C.1 include, in part, the following effluent limitations:

<u>Constituent</u>	<u>Units</u>	<u>Monthly Average</u>	<u>7-day Median</u>	<u>4-day Average</u>	<u>1-Hour Maximum</u>	<u>Daily Maximum</u>
Total Coliform	MPN/100 mL	--	23			500
Aluminum ⁷	µg/L	71				142

⁷ Compliance can be demonstrated using either total, or acid-soluble (inductively coupled plasma/atomic emission spectrometry or inductively coupled plasma/mass spectrometry) analysis methods, as supported by US EPA's Ambient Water Quality Criteria for Aluminum document (EPA 440/5-86-008), or other standard methods that exclude aluminum silicate as approved by the Executive Officer

8. WDRs Order R5-2004-0092 Effluent Limitations C.5 states:

The discharge shall not have a pH less than 6.5 nor greater than 8.5.

9. According to the Discharger's self-monitoring reports, the Discharger committed one (1) serious Group I violation of the above effluent limitations contained in WDRs Order R5-2004-0092 during the period beginning 1 January 2008 and ending 30 June 2010. This violation is defined as serious because the measured concentration of a Group I constituent exceeded the maximum prescribed level in WDRs Order R5-2004-0092 by forty percent (40%) or more. The mandatory minimum penalty for this serious violation is **three thousand dollars (\$3,000)**.
10. According to the Discharger's self-monitoring reports, the Discharger committed five (5) non-serious violations of the above effluent limitations contained in WDRs Order R5-2004-0092 during the period beginning 1 January 2008 and ending 30 June 2010. These five non-serious violations are not subject to mandatory penalty under CWC section 13385 subdivision (i)(1) because they were not preceded by three or more similar violations within a six-month period.
11. The total amount of the mandatory penalties assessed for the cited effluent violations is **three thousand dollars (\$3,000)**. A detailed list of the cited effluent violations is included in Attachment A, a part of this Complaint.
12. Issuance of this Administrative Civil Liability Complaint to enforce CWC Division 7, Chapter 5.5 is exempt from the provisions of the California Environmental Quality Act (Pub. Resources Code section 21000 et seq.), in accordance with California Code of Regulations, title 14, section 15321(a)(2).

THE CITY OF RIO VISTA IS HEREBY GIVEN NOTICE THAT:

1. The Executive Officer of the Central Valley Water Board proposes that the Discharger be assessed an Administrative Civil Liability in the amount of **three thousand dollars (\$3,000)**.
2. A hearing on this matter will be held at the Central Valley Water Board meeting scheduled on **8/9/10 December 2010**, unless the Discharger does one of the following by **13 October 2010**:
 - a) Waives the hearing by completing the attached form (checking off the box next to Option 1) and returning it to the Central Valley Water Board, along with payment for the proposed civil liability of **three thousand dollars (\$3,000)**; or
 - b) The Central Valley Water Board agrees to postpone any necessary hearing after the Discharger requests to engage in settlement discussions by checking off the box next to Option #2 on the attached form, and returns it to the Board along with a letter describing the issues to be discussed; or

- c) The Central Valley Water Board agrees to postpone any necessary hearing after the Discharger requests a delay by checking off the box next to Option #3 on the attached form, and returns it to the Board along with a letter describing the issues to be discussed.
3. If a hearing on this matter is held, the Central Valley Water Board will consider whether to affirm, reject, or modify the proposed Administrative Civil Liability, or whether to refer the matter to the Attorney General for recovery of judicial civil liability.

If this matter proceeds to hearing, the Executive Officer reserves the right to amend the proposed amount of civil liability to conform to the evidence presented, including but not limited to, increasing the proposed amount to account for the costs of enforcement (including staff, legal and expert witness costs) incurred after the date of the issuance of this Complaint through completion of the hearing.
